Together we can all
make a big difference
in preserving and
protecting the
environment and its
precious resources.

India Needs to be Green.

The world is recognizing India as a technological and economical superpower. India more than ever needs to understand and anticipate the global change towards efficient energy and environment friendly work places.

Floreal Towers, from the house of Orris, will offer corporate visionaries an environment which is efficient and effective. The state of the art architecture, the technology and the facilities will be best in class.

Floreal Towers is a pioneering green project in New Gurgaon and will set benchmarks for others to follow.

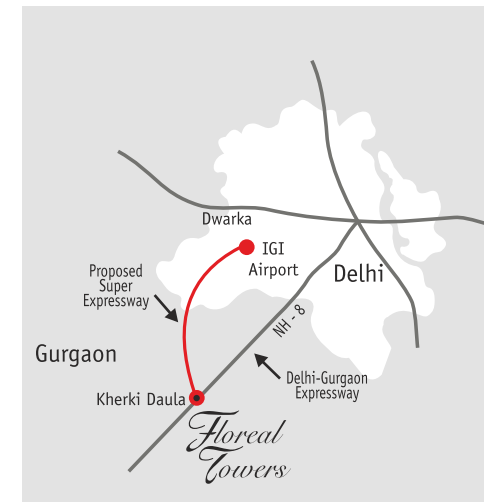

Floreal Towers
 Pioneering Green Building
 Premium Office & Retail Space
 sector 83 • new gurgaon

Floreal Towers: The pioneering green building of new Gurgaon

Floreal Towers is being built according to the guidelines of Leadership in Energy and Environmental Design (LEED).

- Climate- responsive architecture
 - Climate responsive architecture with exterior shading systems
 - Maximum area receives natural daylight
 - Well insulated walls and roof to minimize heat gain
 - Over 50 percent area left as green open spaces
- Energy efficient building
 - Substantial energy savings vis-a-vis conventional building in India
 - Courtyard as microclimate generator reducing energy consumption
 - High efficiency lighting with electronic ballasts
 - Motion sensor lighting
 - Minimum night sky pollution

- Health work environment
 - Healthy air quality with Co₂ sensors to add fresh air on demand
 - Sensitive air-conditioning: airflow variation linked to occupancy and temperature
 - Interior materials with low volatile organic compound (VOC) emissions
 - 3M mats for indoor pollutant source control
- Water management
 - Zero discharge building
 - Less consumption of water
 - Recycling of sewage waste
 - Solar water heating
 - Drip irrigation
 - Storm water management
- Eco friendly material
 - Use of recyclable products, gypsum ceiling, glass, MDF
 - Use of reclaimed wood and bamboo flooring
 - Maximum use of regional materials
 - Eco friendly construction practices

The Floreal Towers: Office

Designed for extra space & performance

- Separate towers of approx 3.4 lac sq. ft. dedicated for office space
- Three level basement parking
- Optimum space utilisation with central corridor and futuristic fittings & fixtures

The Floreal Towers: Retail

Designed for a memorable day-out

- Separate tower of approx 1.3 lacs sq. ft. dedicated for retail space
- Spacious foodcourt spread across 60,000 sq. ft. approx.
- With more than a dozen integrated residential projects within a few kms., Floreal Towers is all set to attract a substantial high net worth of individuals
- With India's leading corporate houses within 2 km radius, it will be an attraction for a huge number of highly paid executives
- The quality footfall makes it the ideal complex for supermarkets, banks, lifestyle products, multi cuisine and open-air restaurants, etc.
